Il profilo Skin Max è pensato appositamente per applicazioni in facciata o a controsoffitto, grazie al suo peso contenuto e alla sezione maggiorata.

Nelle due diverse applicazioni 'grande formato' e 'dogato' è in grado di coincidere con le diverse esigenze progettuali.

The Skin Max profile is designed specifically for applications on façade or ceiling, thanks to its reduced weight and its increased section.

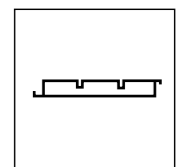

In its two different applications 'big size' and 'staved' it is able to coincide with the different design demands.
